Dominick Hernandez

Passionate Computer Science Grad | Java, Python, & C++ Enthusiast | Aspiring Dev

Love all things computer science, adaptable, analytical thinking, and a drive for self-improvement, I'm committed to making a positive impact wherever I may be.

Projects

TSP4OGP(Current)

- Developing an A* search algorithm optimized for routing through a massive retail floor layout.
- Implemented custom data structures to manage spatial node queues efficiently.

The Freedom of Information Act (FOIA) Data Scraper

- Built a stateful architecture that bypasses age-verification screens and maintains persistent cookies across batch HTTP requests.
- Programmed file detection based on magic bytes, validating file integrity (PDF, MP4, ZIP) to filter out placeholder pages

Skills

Languages: C++, Python, Java, SQL
Frameworks & Tools: Angular, React, Express.js, Node.js, Android Studio
Cloud & Infrastructure: AWS, Git/GitHub
Other: Professional Tax Preparation, Accounting

Education

SEPTEMBER 2020- NOVEMBER 2025

B.A. In Computer Science

3.48 GPA

Southern New Hampshire University

Experience

2020-Current

Assistant Team Lead & Digital Order Fulfillment

Walmart

I work full time, assisting in managing the filling, and dispensing of online orders ensuring the accurate and timely fulfillment of digital orders for our online customers, and helping manage associates working to resolve any issues that may arise.

2018-2020

Tax Preparation

Tax Gator

Worked throughout the tax season each year preparing taxes for businesses and individuals, while filing and handling sensitive material.

2017-2018

Work Study

Howard College

Office work and general student support work. Helped students and coworkers with their computers and general IT.
